As we saw with overwhelming response from buyers "Indonesian Manufacturers Directory, 2009" which has been issued by us in earlier 2009 and also the number of entries submitted, including to provide corporate data to a particular classification. For example, total investment, number of employees, the provinces / regions of interest and so forth, so that an investor / businessman can concentrate more on these segments.

Aware of the things mentioned above, CIC as a leading business consultants in Indonesia provides the answer with **Manufacturers Directory in 6 Provinces of Indonesia, 2009/2010** which is a selection of data from the Directory of manufacturers that have been classified based on the 6 provinces of interest with an investment of above 50 billion rupiah, the total employees
