

INDONESIAN AUTOMOTIVE & COMPONENTS DIRECTORY, 2011

CAR - SOLE AGENT & ASSEMBLER
MOTORCYCLE - SOLE AGENT & ASSEMBLER
PART & COMPONENT MANUFACTURING

INDONESIA'S AUTOMOTIVE MARKET is predicted to continue to grow driven by macro-economic condition that are conducive. Low inflation rate is expected to help in driving improvement in purchasing power and also more competitive market of transportation services during the period 2005 – 2009 had contributed to the growth of the utilization of transportation services in almost every facet.

Total production in 2006 for Four-Wheeled type of vehicles or more, for example, has amount to 296,008 units, however in 2010 jumped to 702,508 units. During the period of January – September 2011, production had reached 612,645 units and until the end of 2011, an estimation of production will be more than 800,000 units

In the other hand, production of the Motorcycles in Indonesia during the period 2006 – 2009 has increased significantly. In 2006, Indonesia's motorcycles production reached 4,458,886 units. In 2010, production increased drastically to 7,395,390 units and for the period January – September 2011 production had reached 6,219,649 units and is expected until the end of 2011 this production will reach 8.3 million units.

The rising of automotive production in Indonesia contributed directly to the increase of business performance of automotive components industry as a major supporting one in Indonesia..

P.T. CAPRICORN Indonesia Consult Inc. as on of the leading independent consultant in Indonesia in term of Industrial Research and Company Investigation has already been succeeded again in compiling and publishing the directory. The 700 pages thick directory and contains 1,012 companies that are "the Second and Third-Tier Automotive Component Supplier" throughout Indonesia. Each company will be equipped with starting from :

We sincerely thank you for your cooperation.

PASAR OTOMOTIF INDONESIA diperkirakan masih akan terus tumbuh terdorong oleh kondisi ekonomi makro Indonesia yang semakin kondusif. Laju inflasi yang rendah dan peningkatan pendapatan masyarakat serta cenderung makin kompetitifnya pasar jasa transportasi ikut mendorong pertumbuhan pemanfaatan layanan jasa transportasi secara umum.

Pada tahun 2006 misalnya, produksi jenis kendaraan roda empat atau lebih adalah sebesar 296.008 unit melonjak menjadi 702.508 unit dan selama periode Januari – September 2011, produksinya sudah mencapai 612.645 unit dan sampai penghujung tahun 2011 ini diperkirakan akan lebih dari 800.000 unit.

Di sisi lain, produksi sepeda motor Indonesia selama periode tahun 2006-2010 juga mengalami peningkatan secara signifikan. Pada tahun 2006, produksi sepeda motor Indonesia mencapai 4.458.886 unit. Tahun 2010, produksinya meningkat drastis menjadi 7.395.390 unit dan untuk periode Januari – September 2011, produksinya sudah mencapai 6.219.649 unit, dan diperkirakan sampai akhir tahun 2011 ini akan melonjak menjadi 8,3 juta unit.

Angka-angka peningkatan produksi otomotif tersebut akan berperan langsung pada peningkatan kinerja bisnis industri komponen otomotif sebagai pendukung utama industri otomotif di Indonesia.

Sebagai sebuah perusahaan konsultan independen di bidang Industrial Research dan Company Investigation, P.T. CAPRICORN Indonesia Consult Inc. telah berhasil menyusun dan mempublikasikan direktori bisnis di atas. Direktori tersebut berisi setebal 700 halaman yang terdiri dari 1.012 perusahaan "Second and Third-Tier Automotive Component Supplier" di seluruh Indonesia.
